

# Oualid NOUARI

## Frontend developer

My name is Oualid, and I'm a junior frontend developer. I started my journey into learning front-end development on January 29, 2022. I started by learning the basics of HTML, CSS, and responsive design from FreeCodeCamp, which gave me the "Responsive Web Design" certification. Also, I have a solid understanding of JavaScript. ReactJs, Redux, and the basics of Typescript—I've created several projects using these technologies, which you can see below
